

THE NICB VEHICLE THEFT STUDY

The NICB Vehicle Theft Study contains vehicle theft rates and rankings for Metropolitan Statistical Areas (MSAs) in the United States from 2000 through 2002.

What are MSAs?

MSAs are major metropolitan areas established by the United States Census Bureau. MSAs represent not only cities and adjacent metropolitan regions, but also border areas.

What do the numbers mean?

Thefts: Number of vehicles stolen in a particular year as reported to the National Crime Information Center (NCIC).

Rank: How vehicle theft rate compares nationally in 2000, 2001 and 2002.

Rate: The number of vehicle thefts reported per 100,000 population.

What is the National Insurance Crime Bureau (NICB)?

The NICB is the nation's premier not-for-profit organization dedicated exclusively to fighting insurance fraud and theft for the benefit of its customers and the public through information analysis, forecasting, criminal investigation support, training and public awareness. The NICB is supported by approximately 1,000 property/casualty insurance companies.
